

## Acceptable Use Agreement for Early Childhood Students

The following agreement covers the student's use of Internet, intranet, portal, network and e-mail. **Girraween School** provides all students enrolled at the school with Information Communication and Technology (ICT) facilities for educational use.

As your child is considered too young to fully understand this type of agreement, you are asked to read through the document carefully, and to sign it if you grant approval for your child to make use of the available facilities.

Students may use these facilities for class work, research and communication. The resources provided include computers and peripherals, access to network resources, e-mail, the NTDEET Educational Portal and the Internet. Care must be taken to ensure the resources are protected from harm and that no users are exposed to materials considered offensive or illegal. In order to have access to the school's ICT resources, parents / guardians and students must agree to abide by the school's Acceptable Use Agreement.

**Note:** Additional explanation of what is entailed by this agreement has been provided to each child. Copies of this information can be obtained from the school upon request.

1. Only software purchased or approved by the school, and installed by the school, can be used on school equipment.
2. Software copyright is to be observed at all times. It is illegal to copy or distribute school software. Illegal software from other sources is not to be copied to or installed on the school equipment.
3. Copyright of materials from electronic resources is to be observed at all times.
4. Students must follow the rules posted for the use and care of the computer equipment at all times.
5. Students using the ICT facilities may only do so under the supervision of school staff. Any students not following staff instructions may have further access restricted or denied.
6. Privacy and network security is to be observed. Students must not under any circumstances access personal files belonging to others, software or areas of the network which are not designated for their use.
7. The sharing of passwords is a security risk and students must not give their password to other students or log in with another users name under any circumstances.
8. All users must log off when leaving a computer.
9. There should be no disruption to class activities by unauthorised broadcast messages across the school network.
10. Virus protection is very important. If students use floppy disks to transfer work between the school network computers and computers outside the network, disks should be scanned for viruses prior to use on the school network. Virus checking software will be made available on the school computers for this purpose
11. Printing of materials of a personal nature or unassociated with school activities is not permitted unless approval is sought from a school staff member. This may incur a charge.
12. The use of ICT facilities, specifically the Internet, is for educational, communication and research purposes only:
  - Deliberate attempts to look for or download and use material that is illegal or which would be thought of as offensive is not permitted. Only materials required for school activities as directed by teachers may be downloaded. If students should unknowingly navigate to a web site that contains material that may be considered offensive, they must clear the screen immediately and notify the teacher.
