

# The Dreadful fluff!

## Kids activity

What could you create to get rid of the Dreadful Fluff?

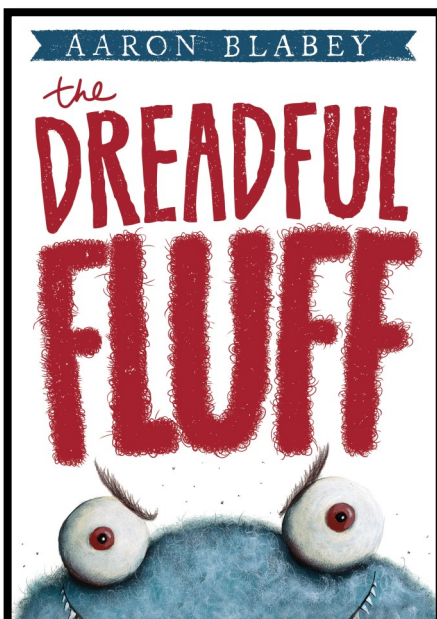

- Draw a picture of your design?
- Think about what the materials will need?
- How does your invention work?

## Parents

Collect recyclable (boxes, yoghurt container etc.)

Work with your children to draw a design of their invention. Some children will just want to start creating and will explain how it work afterwards, this is ok. Send a photo to your teacher.

## Extension

Create a picture of the dreadful fluff. Dip a sponge or tennis ball into paint and throw it against a piece of paper. Once it has dried add some eyes, legs and arms.
