

Day & Night

LI: Explain my existing beliefs about night and day.

Success criteria:

- Describe the difference between night and day
- Describe what causes day and night
- Create and annotated drawing to show the movement of the Sun, Earth and moon to cause night and day.

What we know about night and day

Night

Day

--	--

Where's the Sun?

Name: _____

Date: _____

Why is it dark at night?	True or false?
We need to sleep.	
The Sun goes too far away at night.	
The Sun goes behind a hill at night.	
The Sun is still shining but we are on the shadow side of the Earth.	
The Sun goes to the other side of the world.	
Clouds cover the Sun at night.	

L1: Draw an annotated diagram.

Success criteria

- create an annotated drawing of your ideas about how **night and day** happen.
- Show the movement of the sun, moon and earth.
- Annotate all parts of your drawing.
